# CILAPPATIKARAM

The Anklet's Verdict - In Kūṭiyāṭṭam

## Synopsis of the Performance

A powerful reimagining of the ancient Tamil epic Cilappatikaram through the vocabulary of Kutiyattam, the world's oldest living Sanskrit theatre tradition. This production brings to life the journey of the female protagonist Kannaki, from love and loss to divine justice through deeply expressive and meditative performance.

Rooted in the canonical folds of Kutiyattam yet boldly contemporary in its conception, Director and Actor Sooraj Nambiar crafts a minimal yet emotionally rich theatrical experience that bridges classical literature and modern sensibilities. A rare convergence of Tamil and Sanskrit legacies and an immersive encounter with myth, memory, and the essence of theatre.
